NUMBER: 2564
SUBJECT: GRB 040403 Optical Observations
DATE: 04/04/05 07:04:21 GMT
FROM: Kuntal Mishra at State Obs, Nainital, India <kuntal@upso.ernet.in>

Kuntal Mishra on behalf of the GRB team reports:

We observed the error circle of INTEGRAL GRB 040403 (Gotz et al., GCN 2560) in R band, with 1.0-m telescope at Nainital (India) on April 03, 2004 starting at 16:44 UT. We found no new source brighter than $R = 19.5$ when comparing with DSS-2 R-band chart (USNOA2.0 reference).
